14–19 May 2000

Toronto, Ontario, Canada

Fifth International Symposium in Mineral and Metal Processing

(Part of the 197th Meeting of the Electrochemical Society)

- Flotation separation of sulphide minerals
- Hydrometallurgical treatment of sulphide minerals
- Hydrometallurgical recovery of precious metals
- Electrowinning and refining of base and precious metals
- Electrowinning of aluminium and magnesium
- Environmental concerns related to the mining and minerals industry

The Electrochemical Society Inc.
Pennington, NJ, USA
Organisers:
Professor R. Woods, F.M. Doyle and S. Licht

22–27 May 2000

ACHEMA 2000

Frankfurt am Main, Germany

Dechema e.V
Deutsches Gesellschaft für Chemisches Apparatswesen
Chemische Technik und Biotechnologie e.V.
Tel: +49 (0) 69 7564-201
Fax: +49 (0) 69 7564-0

28 May–2 June 2000

Como, Italy

10th International Meeting on Lithium Batteries: IMLB-10 (Lithium 2000)

- Insertion anodes and cathodes
- Polymer and solid electrolytes
- Liquid electrolytes
- Primary and rechargeable cells
- Safety, reliability and cell design
- Industrial production and development

IMLB 10 Conference Secretariat
c/o The Electrochemical Society Inc.

31 May–2 June 2000

Gloucester Hotel, London

The 2000 London International Chlorine Symposium

- Running today's chlorine plants
- New chlorine technology
- Advances in safety, health, environmental performance and public awareness
- Advances in technology and operation
- Inorganic and organic process derivatives
- Economic projections

Chlorine 2000

21–22 June 2000

Southampton, UK

Ion Permeable Membranes: a Short Course

- Fundamental properties of ion exchange membranes
- Membrane synthesis and manufacture
- Physical chemistry of membranes
- Applications of membranes in electrochemical technology
- Chlor-alkali processing
- Electrodialysis and salt splitting
- Environmental treatment and process recycling
- Fuel cells and redox flow cells
- Trends in membrane development

27–31 August 2000

Prague, Czech Republic

CHISA 2000

**14th International Congress of Chemical and Process
Engineering**

- Special symposium on electrochemical engineering
- General chemical engineering
- Reaction engineering
- Separation processes and equipment
- Hydrodynamic processes and equipment
- Heat transfer processes and equipment
- Fluid properties, phase and chemical equilibria
- Research & development; technology management
- Process system engineering; equipment

13–15 September 2000

Garmisch-Partenkirchen, Germany

**15th Interfinish Congress and Exhibition
in conjunction with:**

18–22 September 2000

Garmisch-Partenkirchen, Germany

**7th International Conference on Plasma Surface
Engineering (PSE 2000)**

- Tribology
- Corrosion
- Decorative coatings
- Information technology
- Shielding
- Microtechnology
- Medical applications
- New materials

7–8 December 2000

University of Western Sydney, Australia

**Australasian Symposium on Trace Analysis and
Environmental Monitoring**

- Current environmental pollution issues
- Quality issues

- Sampling and environmental materials
- Sample preparation
- Trace instrumental techniques
- Design of field investigations
- Environmental monitoring and management strategies
- Chemometrics and data evaluation

BOOK REVIEWS

Subject areas relevant to the Journal's interests include: environmental electrochemistry, recycling and removal

of contaminants, batteries, fuel cells and electrochemical energy conversion, corrosion and protection of metals, electrosynthesis (of organics, inorganics, metals, alloys, polymers, ceramics and composites), electrocatalysis, photo- and semiconductor electrochemistry, electrochemical engineering and reactor design, electrode materials and coatings, electrochemical techniques, electrochemical sensors and monitors.

Publishers are invited to send copies of new books to the News Editor: Professor Frank Walsh, Applied Electrochemistry Group, School of Pharmacy & Biomedical Sciences, University of Portsmouth, St Michael's Building, White Swan Road, Portsmouth PO1 2DT, UK, for review in this journal.
